EXPERIENCE

Full Stack Developer
3K Restaurant

📅 10/2024 12/2024   📍 Yangon, Burma
- **Completed a project sourced from a personal network referral**
- Developed and deployed a food delivery web app for the 3K restaurant, improving the business's performance by 30%.
- Designed a responsive and visually appealing frontend using **HTML**, **CSS**, and **Tailwind CSS**, ensuring a seamless user experience across all devices
- Developed backend services using **PHP** and integrated them with the server to ensure smooth interactions, durability, and reliability of the application
- Collaborated closely with the restaurant team to gather **requirements**, provide progress updates, and align the website with their business goals
- **MySQL** was used for storage of the users' data and displaying dynamic data on the web app, and SQL Queries were used for **CRUD** operations and retrieved reporting data to analyse

Full Stack Developer
Chi Chi Travel Agency

📅 04/2024 06/2024   📍 Mandalay, Burma
- **Completed a project sourced from a personal network referral**
- Developed and deployed a travel web app for the chi chi travel agency, reaching more clients by 34%.
- Engineered dynamic, responsive user interfaces using **HTML**, **CSS**, and **JavaScript**, ensuring optimal performance across various devices
- Leveraged **MySQL** to create robust database solutions and implemented efficient data retrieval using complex SQL queries with JOINS
- Designed and implemented an admin panel using **PHP**, **MySQL**, and **JavaScript**, enabling **CRUD** operations and empowering the admin to analyze visualized reports effectively
- Knowledge gained in version control using **Git** and **GitHub** to manage code and collaborate effectively

University of Central Lancashire

📅 09/2019 03/2024   📍 England
- **First Class Honours** in Business Computing and Information Systems
- University of Central Lancashire, England
- GPA 3.7/4.0

Web Development Certificate
AB Programming Training Center

📅 07/2022 09/2022   📍 Yangon, Myanmar

SUMMARY

Skilled in full-stack development (Node.js, React, PHP) and proficient in database management (MySQL, PostgreSQL, SQLite, MongoDB). Successfully delivered freelance projects emphasizing responsive design, database optimization, and seamless user interface enhancements. I take a results-oriented and quality-focused approach to every project. Eager to excel in dynamic, fast-paced environments and tackle new challenges with enthusiasm, adaptability, and a commitment to continuous growth.
